

WHITEPAPER

PEPA INU

INTRODUCTION

Pepa Inu is a new and exciting meme-based cryptocurrency project that aims to revolutionize the world of memecoins. With a community-driven approach and a passion for memes, Pepa Inu is designed to bring fun and innovation to the cryptocurrency market.

This whitepaper serves as a comprehensive guide to the Pepa Inu project, outlining its vision, features, and roadmap.

By providing transparency and clarity about the project, Pepa Inu aims to establish trust and credibility among its users and investors. Whether you are a seasoned cryptocurrency investor or new to the market, this whitepaper will provide valuable insights into the unique features and potential of Pepa Inu.

TEAM

Pepa Inu is led by a passionate and experienced team with a clear vision for the future of the project.

The team consists of two brothers from the Netherlands, one of whom is a web developer and the other is the founder and CEO of the project, Elroy.

Elroy, who is 32 years old, has a wealth of experience in the crypto and community building space. After experimenting in the NFT space, he realized that crypto has a stronger foundation and decided to focus on building a community-driven memecoin with real utilities. With the support of his team, including his brother, Elroy is dedicated to making Pepa Inu a globally recognized memecoin with real-world applications.

BACKGROUND

TRANSPARENT

DOXXED

DRIVE TO SUCCEED

RECRUITING TALENT

TOKENOMICS

Pepa Inu has a total supply of 420,000,000,000,000,000 tokens, out of which 50% has been burned, leaving a circulating supply of 210,000,000,000,000,000 tokens. Additionally, 71,000,000,000,000,000 tokens have been locked in liquidity.

The buy/sell tax for Pepa Inu is 10%, which is split into 5% for automatic distribution to holders on every transaction, 2% for buyback and growth, 2% for marketing, and 1% for liquidity.

These tokenomics ensure that holders are rewarded for holding Pepa Inu, and the buyback and growth mechanism helps in maintaining a stable price floor for the token. The marketing and liquidity fees also help in promoting and supporting the long-term growth and sustainability of the project.

PEPA'S JOURNEY

FOLLOW PEPA ON HIS ADVENTUROUS JOURNEY

PHASE 1

Launch website

Build OG community

Launch presale

Apply for CoinGecko and CoinMarketCap listings

Develop Pepa MemeMarket

PHASE 2

Launch marketing campaign

Get listed on exchanges

Develop Pepa Voting System

Open limited Pepa Merch shop

Start Ambassador Program

Reach 5000 Telegram members

PHASE 3

Release Pepa MemeMarket v1.0

Launch NFT collection

Establish partnerships

Release Pepa Voting System v1.0

Launch Celebrity Marketing campaign

Reach 15000 Telegram members

In addition to the roadmap, Pepa Inu is also developing the following utilities:

FUTURE POOLS

This is a feature that allows users to bet on any coin with just a small amount of Pepa, for instance 5 USD worth. The winner is automatically decided by a smart contract cross-chained with Chainlink or Oracle, and the winner receives 85% of the pool, while the remaining 15% is retained as a pool fee.

PEPE CARE

Pepa Inu will be implementing a voting system for holders only, and provide monthly choices of charities to choose from. At the end of each month, the community will have the opportunity to vote and decide which charity Pepa Inu should donate to.

As the project grows, Pepa Inu plans to develop more utilities that will add value to the community and make Pepa Inu a well-known memecoin with real-world applications.

We are excited to announce that we have partnered with Sphynxlabs, a well-known digital art studio, to release a limited series of Pepa Inu NFTs. Created by renowned Pepe-artist, foundation.app/ensart, these NFTs are truly unique and offer a wide range of utilities for our community.

The series consists of 5 NFTs with a limited supply, each with their own distinct design and value. The NFTs will be sold at a fixed price ranging from 0.25 BNB to 0.45 BNB, with a limited number of editions available for each.

One of the key utilities of these NFTs is staking. Each NFT staked will provide a fixed APR % in \$Pepa coins, with an increased APR % for staking multiple NFTs. The maximum return is achieved by staking all 5 NFTs.

Additionally, holding a minimum of 2 NFTs will grant access to our OG investor group, where you can discuss and make decisions regarding the use of funds generated from the NFT sales. All funds generated from the NFT sales will be used for the project, with full transparency on how they are used. The only percentage taken will be by the artist, as we believe in supporting talented creators in the industry.

Not only are these NFTs beautifully crafted by Sphynxlabs and foundation.app/ensart, but they also offer a unique way to support the project and gain additional rewards through staking. This limited series is the first of many planned NFT releases, as we aim to support artists and offer a diverse range of Pepa Inu NFTs to our community.

PEPA INU USE CASES

PAYMENT METHOD

VOTING

FUTURE POOLS

FUTURE POOLS

The Pepa Inu token has several use cases, including:

Payment method: Pepa Inu can be used as a payment method for goods and services within the Pepa Inu ecosystem, as well as other platforms that accept cryptocurrencies.

Voting: Pepa Inu holders will have voting rights for proposals and decisions related to the project, such as charity donations, future developments, and marketing campaigns.

Future Pools: Users can bet on any coin with a small amount of Pepa and stand a chance to win the pool by automatically deciding the winner using smart contracts cross-chained with chainlink/oracle.

Pepe Care: Pepa Inu will implement a voting system for holders only to provide monthly choices of charities to donate to. At the end of each month, the community decides which charity to donate to.

MARKETING

TRANSPARANCY & COMMUNITY-DRIVEN

At Pepa Inu, we pride ourselves on our transparency and community-driven approach. We believe that our success is only possible through the support and feedback of our community members. As such, we strive to maintain an open and honest dialogue with our community, regularly sharing updates on our progress, and listening to their input and suggestions.

We also recognize the importance of marketing in growing our project, but we want to ensure that our community's needs and concerns are taken into account. That's why we set aside a 2% marketing fee, which we will use to promote Pepa Inu while still maintaining our community-driven approach.

Furthermore, we want to be transparent about our token selling strategy. As the project continues to grow, we may sell some of our tokens to fund further development and marketing efforts. However, we will always do so with the utmost transparency and will communicate our actions clearly to our community.

PARTNERSHIPS

We are always looking to establish partnerships to help boost the ecosystem and gain trust from new investors. So far, we have partnered with:

<https://thesphynx.co/> - a multichain NFT platform

<https://pinksale.finance/> - a launchpad

<https://t.me/presidentpromotions> - marketing agency.

In addition to our current partnerships, we are always open to potential partnership requests from other projects and companies. We believe that collaborating and working together can lead to mutual benefits and growth for both parties.

If your company is interested in exploring a potential partnership with Pepa Inu, please use the contact form on our website to get in touch with us. We are always excited to hear new ideas and opportunities, and we look forward to potentially working with you in the future.

SECURITY

In addition to the contract audit by Analytix, we take the security and safety of our investors very seriously. We have implemented various measures to protect our investors from scammers and vulnerabilities. Our team is constantly monitoring our social media channels and groups to prevent any fraudulent activities or phishing attempts. We also urge our community members to exercise caution and report any suspicious activities to our team immediately.

Furthermore, we plan to conduct a Certik audit once we reach a market cap of 3 million. We believe that this will further strengthen our security measures and provide additional assurance to our investors. We are committed to maintaining a high level of transparency and security, and will continue to explore opportunities to enhance the security of our platform.

In conclusion, Pepa Inu is a community-driven memecoin with real-world utilities and transparent tokenomics.

Our team is dedicated to building a strong and thriving ecosystem for Pepa Inu, and we are always open to feedback and suggestions from our community members.

With a roadmap that includes exciting new utilities like Future Pools and Pepe Care, we believe that Pepa Inu has a bright future ahead. We take the security of our investors seriously and have taken measures to protect them from potential risks.

We have established partnerships with other reputable projects, and we are open to exploring new partnership opportunities. Overall, we believe that Pepa Inu is a promising project that has the potential to make a real impact in the crypto space.
